RICOH Interactive Whiteboard D3210

RICOH
imagine. change.

Maximise small space potential with multiplane high resolution technology

RICOH Interactive Whiteboard D3210 is ideal for use in huddle spaces, where its feature-rich capabilities can turn one-to-one meetings into milestone moments worthy of the boardroom.

- Small and light with a 32" screen*
- Unique versatile mounting options – vertical or flat – plus 180° screen rotation**
- Superior touch screen sensitivity thanks to capacitance intelligence (PCAP)
- Compatible with Ricoh standard and smart controllers to customise functionality
- Easy to use with an intuitive UI – simply plug in, switch on and connect
- Sleek design, vivid display and easy access controls

*D3210 display is available in white only

**Vertical option in portrait mode for Ricoh standard controllers only

Perfect for multiple-use spaces

With superb visuals and an impressive suite of touch-screen features, RICOH Interactive Whiteboard D3210 is a natural fit for customer-facing discussions in estate agencies, banks, car dealerships and architectural or design firms, to name a few.

Used in schools, tuition centres, libraries, research centres and information points, the D3210 brings a dynamic intensity and tactile experience to presentations.

As a shared surface, the D3210 is also an invaluable tool in the healthcare sector for both medical staff and patients.

Unique flip feature for table-top interaction

The beauty of the D3210 is its size, weight and neat profile, which makes it the perfect solution for smaller meeting spaces. Its physical versatility means you can stand it or lay it flat to create an interactive table top. Equip it with a Ricoh smart controller and you have the option of using the display in either portrait or landscape view.

Designed to facilitate communication, stimulate thinking and boost productivity, the D3210 is powerfully versatile, making it the ideal solution for the 'huddle space' market.

Items		Specifications
Panel size		32" (31.5")
