Blancco File Eraser

**Secured & Certified
Complete Data Sanitisation**

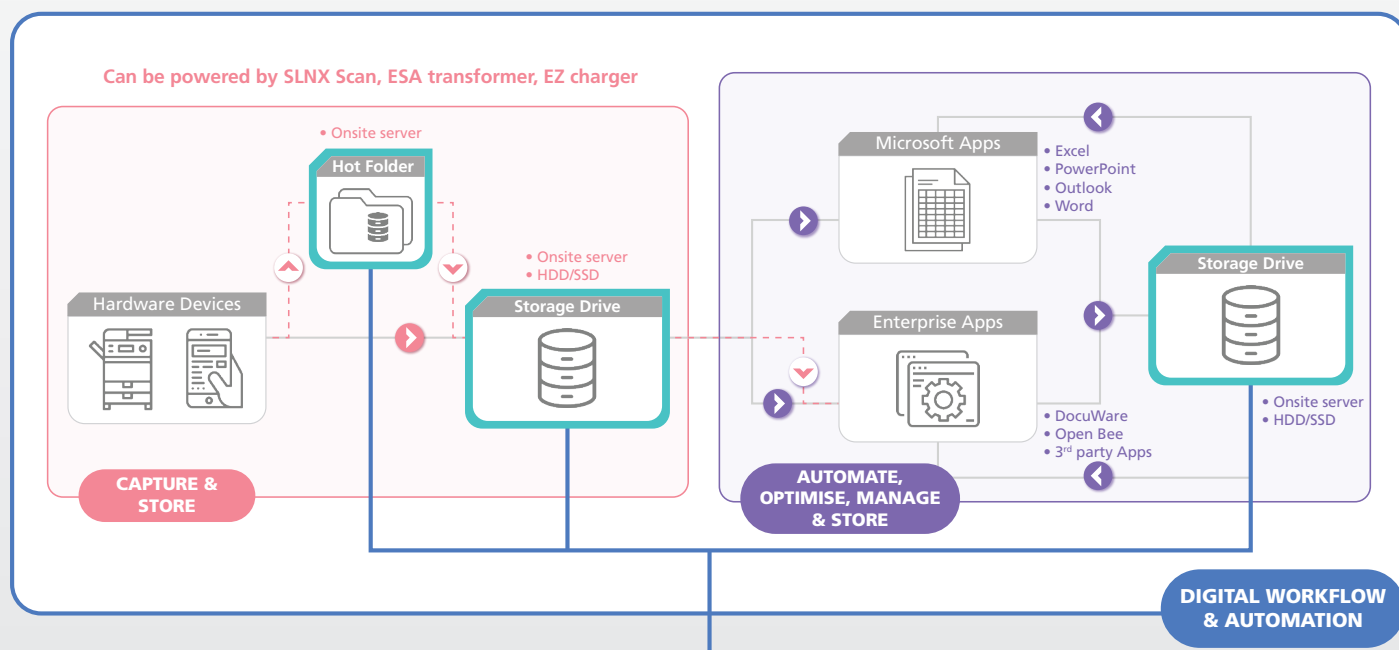

Blancco File Eraser

The first solution Common Criteria certified to permanently remove files on PCs, laptops and servers

Protect data across your entire workflow process with secured, automated and certified data erasure

Easily manage, automate and certify your organisation's data erasure processes with Blancco File Eraser. Backed by the testing and certification of Common Criteria and supporting Windows and Linux operating systems, this data sanitisation solution helps reduce user error while enhancing security and compliance.

Sanitise your data through a secure and certified method

Key benefits:

Securely erase data in live environments

- Prevent leaks of sensitive data with automated, targeted erasure.
- Implement rules and automated schedules to erase files and folders in accordance with your organisation's internal security policies as well as external regulations.

Establish a tamper-proof audit trail

- Track erasure activities with advanced reporting features and validate compliance among national and international regulatory bodies, including PCI DSS, EU GDPR and HIPAA.

Uphold operating standards and improve productivity

- Install with ease onto existing systems with remote installation and deployment.
- Improve productivity with automated erasure routines.
- Maintain compliance and knowledge towards data sanitisation policies and procedures across your organisation.

Blancco File Eraser
