Ricoh EZ Plus

Apps for enhanced convenience and productivity
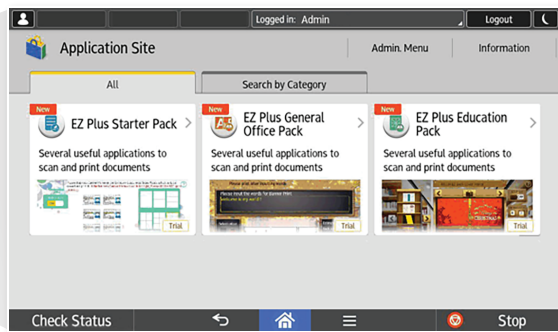

Introduction

Ricoh EZ Plus is a collection of Apps available for Ricoh's Multifunction Devices (MFDs) with the second generation Smart Operation Panel.

These Apps provide a range of useful features that enhance the default MFD functions, as well as serve the diverse needs of customers across different cultures and industries.
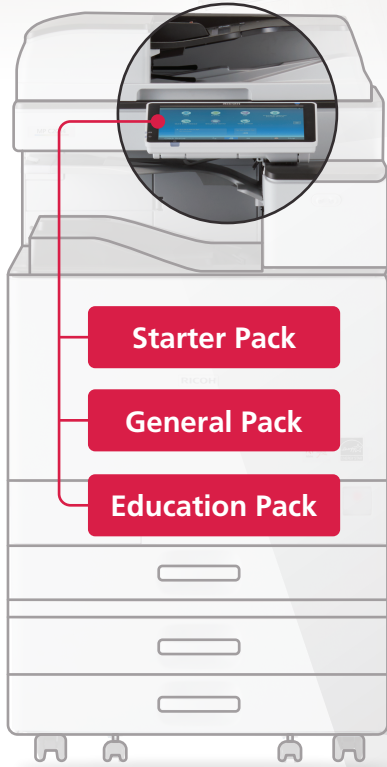

Ricoh EZ Plus Apps are designed for simple and easy integration into any working environment where customers are increasingly looking for smarter and more convenient ways to work.

Ricoh EZ Plus Apps are now available for all Ricoh Multifunction Devices with Smart Operation Panel Version 2.0. Simply download the Apps on Ricoh Application Site to enjoy a 45 days free trial.

45 DAYS FREE
TRIAL VERSION
*Via RICOH Appstore Only.

The Ricoh EZ Plus Apps work with different business needs and help to streamline and simplify the mandate processes, thus improving productivity.

All the applications from Ricoh EZ Plus are developed by Ricoh. Existing users of Ricoh MFDs can now enjoy a 45 days free trial period on all the applications.

License keys are required after the trial period.

Please kindly contact our Ricoh sales consultant for more information.

*Note

Please kindly note that all applications are sold by per pack basis. Mix and Match application purchase is not available at the moment.

?

Tired of scanning a handful of small and odd-sized receipts one by one?

Starter Pack

Masking
Mask-out any sensitive information on scanned document before printing.

Receipt Scan
Scan multiple odd-sized receipts and sort them by individual dates before sending to a specific destination.

Copy Clone
Duplicate the original documents up to 8 copies into a single A4 sheet.

Image Divider
Scan multiple documents and auto separate individual documents into each A4 sheet at one go.

Education Pack

Trace
Create writing practice paper by scanning and reducing original document text colours.

Picture Colouring
Create colouring paper by retaining image outline. Images can be imported from USB and SD card.

Missing or wrong organization logo on handover pages?

Trouble in removing personal or confidential informations without altering the original documents?

account

General Pack

Logo Insertion
Insert logos onto scanned documents and print.

Banner Print
Create customized text banner into multiple A4 sheets for easy carrying.

Letter Creator
Create decorative letters with available templates to print or save.

Keyword Shortcut
Create cautionary statements such as "SPOILT","WARNING" and print.

Number Tag
Print number tags with auto-numbering and logo insertion features.

Single Colour Removal
Create revised practice paper such as exam papers by scanning the original document and removing specific text colours from it.

Book Cover Maker
