

RICOH
Creative
Collaboration
for Display

Make meetings highly productive with wireless presentation, video conference and AI assistant functions to empower your displays.

Easy content sharing

Make your meetings more interactive with collaborative content sharing. You can share content seamlessly on the interactive whiteboard from your laptop or smartphone and control your device from the whiteboard screen. Simply connect via HDMI cable connection or Miracast, Google Cast or Apple AirPlay wirelessly (without any additional app required).

Fast launcher screen

Upon screen launch, you can choose the pre-installed application that suits your objective, such as joining video conference, and sharing your content.

Easy collaboration with a split screen

Being able to display multiple devices at the same time makes for more productive and collaborative discussions.

Enhance your meeting efficiency

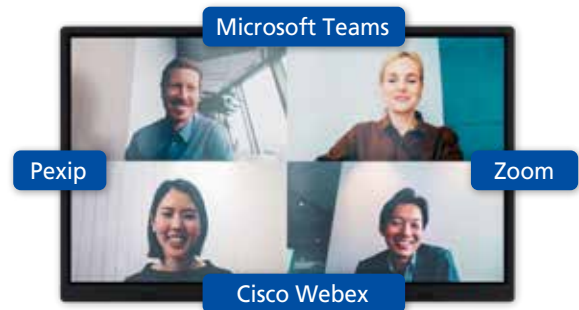

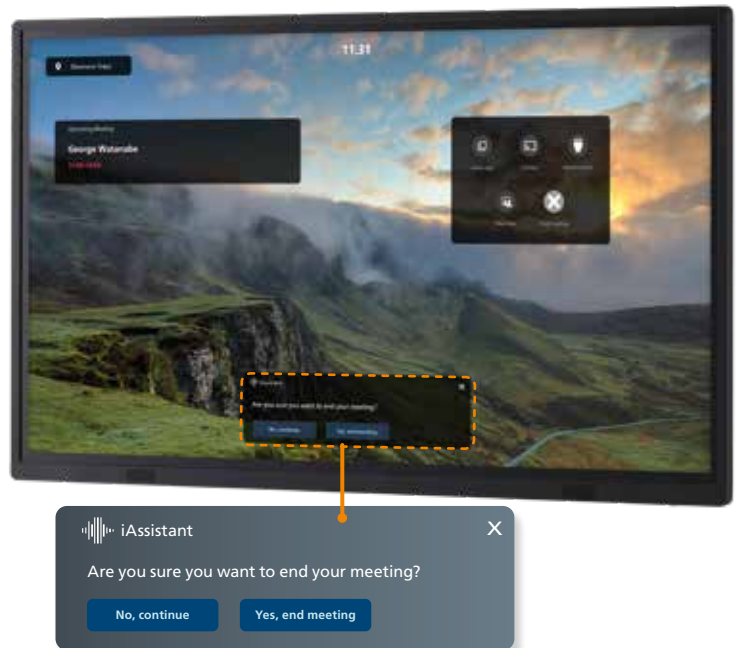

The virtual assistant will be on hand throughout to keep your meetings on track, efficient and stress-free.

Technical adjustment

The virtual assistant will offer smart adjustments to run your meeting smoothly.

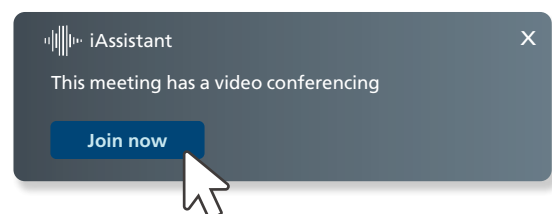

-  System health
-  Turn volume up
-  Join meeting
-  Extend meeting time
-  Finish meeting

Multi vendor support

Most of the video conferencing systems on the market are supported.

Skype for business | Microsoft Teams | Cisco Webex | GoToMeeting | Google Cloud | Zoom | Pexip | Lifesize | Conx Video Meeting | Join me

Easily join remote meetings

Your display grants you access to most of the video conferencing systems on the market. Joining the virtual room will be as easy as one single tap, by clicking the "Join Now" button.

One tap to join

From your meeting link, the virtual assistant will automatically notify you to join the video conference with a simple tap, regardless of which video conferencing system you are using.

Technical Requirements
